

Dear Parent/carers

As you are aware children have been sent home with a pack to support their learning next week. After that tasks will be available via our website and class pages. Check out the 'online learning page' under the classes tab on the website. These are some of the websites that children will be set work from. It also has activities such as Fun Forest School!

If your child needs a log in this will have been sent home with their learning pack. Contact their teacher via the office email: sch.364@educ.somerset.gov.uk marked for the attention of their teacher.

Teachers will upload tasks weekly. They will include a daily literacy task, maths task and reading. Topic work will be set for the week and of course tables, spellings and daily reading should also remain in place.

Jones the builders group have sent an Easter Egg colouring competition for you to enjoy. Entries can be found on each class page.

Contacting teachers or school staff:

If you or your child have a question about the work that has been set, contact your teacher on the google email address at the top of your class page. Any other queries must go through the office email address as mentioned above. Teachers will be available to respond during school hours on most days.
